About Morinda Citrifolia Fruit

Morinda Citrifolia Fruit is used as a medicine in Bali, Tahiti, Bahamas, the Caribbean Sea, Amazon, and other places and Coreana Songpa Technical Institute has it certified as a functional ingredient for wrinkle improvement for the first time in Korea. Ample 'scopoletin' contained in Morinda Citrifolia Fruit helps the creation of collagen to take care of wrinkles intensively. It is also referred to as 'a gift from God' and recorded in Donguibogam as 'Hepaguk'. Morinda Citrifolia Fruit Extract especially excels in skincare and also has ample anti-oxidative ingredients that prevent aging and improve skin and acne and therefore shows outstanding effects on various kinds of inflammation, a discharge of blood from a blood vessel, and blood vascular diseases.

Beauty can be achieved only when nutrients and moisture are maintained in order to prevent dryness which causes aging and wrinkles!

Turn back your skin time!
